Taking Biology Seriously Inmaculada de Melo-Martín,2005 Inmaculada de Melo-Martin carefully defend the importance of social and political policies to guide the bio ethical co-construction of a better life for all. As she argues with edifying balance, only by taking biology seriously can we become serious in appreciating its true benefits and counter the illusory hopes and fears that are often projected upon it.--Carl Mitcham, Colorado School of Mines.

Rethinking Reprogenetics Inmaculada de Melo-Martín,2016-11 Reprogenetic technologies, which combine the power of reproductive techniques with the tools of genetic science and technology, promise prospective parents a remarkable degree of control to pick and choose the likely characteristics of their offspring. Not only can they select embryos with or without particular genetically-related diseases and disabilities but also choose embryos with non-disease related traits such as sex. Prominent authors such as Agar, Buchanan, DeGrazia, Green, Harris, Robertson, Savulescu, and Silver have flocked to the banner of reprogenetics. For them, increased reproductive choice and reduced suffering through the elimination of genetic disease and disability are just the first step. They advocate use of these technologies to create beings who enjoy longer and healthier lives, possess greater intellectual capacities, and are capable of more refined emotional experiences. Indeed, Harris and Savulescu in particular take reprogenetic technologies to be so valuable to human beings that they have insisted that their use is not only morally permissible but morally required. Rethinking Reprogenetics challenges this mainstream view with a contextualised, gender-attentive philosophical perspective. De Melo-Martín demonstrates that you do not have to be a Luddite, social conservative, or religious zealot to resist the siren song of reprogenetics. Pointing out the

flawed nature of the arguments put forward by the technologies' proponents, Rethinking Reprogenetics reveals the problematic nature of the assumptions underpinning current evaluations of these technologies and offers a framework for a more critical and sceptical assessment.

It presents a contextualised case of a multilingual language policy which takes the Content and Language Integrated Learning (CLIL) approach. The volume discusses various approaches to multilingual education including CLIL and then proposes guidelines for a multilingual language policy for Universitat Jaume I in Castelló, Spain. It examines the advantages of a multilingual education programme and reviews the success of existing language policies. Stress, Compassion Fatigue and Burnout Handling in Veterinary Practice Inmaculada Pérez Madrigal, Patricia Smith, 2021-07-08T00:00:00+02:00 There is a need to publicize the syndromes occurring in veterinary personnel due to work-related stress. Vets are apathetic or leaving the profession. It is vital for their emotional health that they know about these syndromes and the importance of seeking help early on. The up-to-date compilation of studies gives a clinical and human vision of these challenges based on the authors' experience.

Language and Muslim Immigrant Childhoods Inmaculada Ma García-Sánchez, 2014-06-03 Language and Muslim Immigrant Childhoods Documenting the everyday lives of Moroccan immigrant children in Spain, this in-depth study considers how its subjects navigate the social and political landscapes of family, neighborhood peer groups, and the institutions of their adopted country. García-Sánchez compels us to rethink theories of language and racialization by offering a linguistic anthropological approach that illuminates the politics of childhood in Spain's growing communities of migrants. The author demonstrates that these Moroccan children walk a tightrope between sameness and difference, simultaneously participating in the cultural life of their immigrant community and that of a "host" society that is deeply ambivalent about contemporary migratory trends. The author evaluates the contemporary state of research on immigrant children and explores the dialectical relations between young Moroccan immigrants' everyday social interactions, and the broader cultural logic and socio-political discourses arising from integration and inclusion of the Muslim communities. Her work focuses in particular on children's modes of communication with teachers, peers, family members, friends, doctors, and religious

figures in a society where Muslim immigrants are subject to increasing state surveillance. The project underscores the central relevance of studying immigrant children's day-to-day experience and linguistic praxis in tracing how the forces at work in transnational, diasporic settings have an impact on their sense of belonging, charting the links between the immediate contexts of their daily lives and their emerging processes of identification.

Transforming Education Inmaculada Egado,2005 For anyone wishing to understand the process of transforming education in Spain, Inmaculada Egado has presents a detailed and encyclopedic description of events. Against historic background, this book discusses the impact of recent and current change, a process which has transformed education from a very centralised to a decentralised and democratic system. As the author indicates :In the last three decades education in Spain has been characterised by a profound transformation. Practically, there is no aspect of the educational system that has not been modified during this period, including both the administration and government of education and the structure and content of educational levels, the education financing and the training and work conditions of teachers... despite the delay in the starting point the achievements of the Spanish educational system in the last years are undeniable'. The autonomy of schools receives much attention not the least because of the changes which affect school governance, the participation of parents and the role of the school principal. The author concludes that, despite democratisation, there remains the need to further this process in relation to the internal functioning of schools and especially in relation to the actual participation of parents and pupils. PARTIAL CONTENTS: Acknowledgements; The Spanish Educational System; Historical Overview of the Spanish Educational System; Key Features of the Educational System; Legislation, Principles and Administration of the Educational System; Structure of the Spanish Educational System; Teaching Staff; An Overview of the Spanish Educational System: Light and Shade; School Management: Meeting the Challenges of the New Millennium.

Making Babies: Biomedical Technologies, Reproductive Ethics, and Public Policy Inmaculada de Melo-Martín,2013-03-09 Each year, roughly a million new cases of cancer appear in the US, and more than 500,000 Americans die annually of premature death. Although medical progress has slowed cancer mortality, its incidence is increasing roughly six times faster than cancer mortality is decreasing. Breast cancer, in particular, has been increasing about one percent each year since 1973. At least two of the factors responsible for this surge in breast cancer are women's use of medically-prescribed synthetic hormones and the exposure of the entire population to chemicals such as dioxin. Both exposures increase the likelihood of breast cancer. Although many ethicists worry about involuntary societal imposition of chemicals such as dioxin, through industrial and agricultural processes, allegedly voluntary exposures also constitute both, a public-health problem and a biomedical-ethics difficulty. Physicians recommend synthetic hormones, for example, to women who apparently take

them voluntarily. In the case of in vitro fertilization, doctors prescribe hormones to induce egg production and to increase the chances of reproduction for couples who are unable to have children. Despite the benefits of medical technologies such as hormone stimulation and in vitro fertilization, they also carry great risks. The price that childless women pay, for their opportunity to have children through in vitro fertilization, may be their own increased risk of diseases - such as breast cancer - that are hormone dependent.

Spanish Women Authors of Serial Crime Fiction Inmaculada Pertusa-Seva, Melissa A. Stewart, 2020-09-23 With its focus on recent detective series featuring female investigators, this collection analyzes the authors' treatment of current social, political and economic problems in Spain and beyond, in addition to exploring interrelations between gender, globalization, the environment and technology. The contributions here reveal the varied ways in which the use of a series allows for a deeper consideration of such issues, in addition to permitting the more extensive development of the protagonist investigator and her reactions to, and methods of, dealing with personal and professional challenges of the twenty-first century. In these stories, the authors employ strategies that break with long-standing conventions, developing crime fiction in unexpected ways, incorporating elements of science fiction, the supernatural, and the historical novel, as well as varied geographical settings (small towns, provincial cities, and rural communities) beyond the urban environment, all of which contributes to the reinvigoration of the genre.

McGlue Ottessa Moshfegh, 2024-03-14 Ganadora del Fence Modern Prize y del Believer Book Award, la despiadada novela de debut de la autora del fenómeno *Mi año de descanso y relajación* : «Todo un viaje» (The Times) UNO DE LOS LIBROS MÁS ESPERADOS DE 2024 POR LA VANGUARDIA «Posiblemente la autora estadounidense más interesante de su época». The New York Times Salem, Massachusetts, 1851: McGlue, marinero rudo, tramposo y canalla, nos habla desde la bodega mugrienta del barco en la que está retenido, en un estado de embriaguez intermitente que vuelve la realidad ambigua. Divaga entre recuerdos borrosos y teje una fina línea entre la niebla del alcohol y las trampas de la memoria. Es posible que haya matado a un hombre, y que ese hombre fuera su mejor amigo. Ahora, solo quiere un trago para acallar las aterradoras sombras que acompañan a su indeseada sobriedad. A medio camino entre un cuento de piratas y un western, la primera novela que escribió Ottessa Moshfegh huele a vómito, sangre, pólvora, whisky, sal, sudor y madera vieja, y demuestra que desde el principio supo ser nihilista y superlativa. La crítica ha dicho... «Extraña y magnífica». Los Angeles Times « McGlue debe tanto a Cormac McCarthy como a Poe o Melville. Un artefacto curioso y encantadoramente barroco». The Independent «Impresionante». The Guardian «Se lee como un corte en la garganta: inmediato, visceral, sincero, implacable, violento, grotesco y hermoso. [...] McGlue combina la urgencia de la ficción breve con la grandiosidad de un clásico de la épica marítima». Los Angeles Review of Books «Estás en buenas (aunque pegajosas) manos con cualquier

historia de Ottessa Moshfegh. [...] Escrita como si tuviera la náusea en la garganta, la trama da más vueltas que la cabeza de su protagonista y la prosa es tan destilada como el licor que traga sin parar. [...] Todo un viaje». Fiona Wilson, The Times «En McGlue, su facilidad para habitar la voz de un sinvergüenza del siglo XIX compite con su capacidad para evidenciar los rincones más ásperos y sucios de la condición humana. [...] Su prosa es impresionante, ingeniosa y siempre eléctrica Bustle «Su novela de debut ya incorpora el tipo de personajes que configurarán su imaginario: con una psicología salvaje y un esperpento vívido que intrigará a sus lectores». Booklist «Una anticomedia romántica potente, peculiar y delirante». Kirkus Review «Descendiente de Nathaniel Hawthorne y Raymond Carver, Moshfegh transforma lo venenoso en estupefaciente». Rivka Galchen «Una historia sórdida de amor y muerte en alta mar que entremezcla una prosa maravillosa con un virtuosismo y una sensación de verdad que te retorcerá las entrañas por no poder evitar estar de acuerdo». Gary Lutz

Learning with computing tools can aid theory and help students to think, analyze and reason in meaningful ways. The book is also complemented with classroom slides and MATLAB and SIMULINK exercise files to aid students to focus on fundamental concepts treated.

Political Change in the Middle East and North Africa Szmolka Inmaculada Szmolka, 2017-06-29 Taking a comparative approach, this book considers the ways in which political regimes have changed since the Arab Spring. It addresses a series of questions about political change in the context of the revolutions, upheavals and protests that have taken place in North Africa and the Arab Middle East since December 2010, and looks at the various processes have been underway in the region: democratisation (Tunisia), failed democratic transitions (Egypt, Libya and Yemen), political liberalisation (Morocco) and increased authoritarianism (Bahrain, Kuwait, Syria). In other countries, in contrast to these changes, the authoritarian regimes remain intact (Saudi Arabia, Qatar, Arab United Emirates).
