Legume Genetics and Biology Petr Smýkal, Eric J. Bishop von Wettberg, Kevin McPhee, 2020-12-29 Legumes have played an important part as human food and animal feed in cropping systems since the dawn of agriculture. The legume family is arguably one of the most abundantly domesticated crop plant families. Their ability to symbiotically fix nitrogen and improve soil fertility has been rewarded since antiquity and makes them a key protein source. Pea was the original model organism used in Mendel's discovery of the laws of inheritance, making it the foundation of modern plant genetics. This book based on Special Issue provides up-to-date information on legume biology, genetic advances, and the legacy of Mendel.

There is no Map in Hell Steve Birkinshaw,2017-05-01 In 1986, the legendary fell runner Joss Naylor completed a continuous circuit of all 214 Wainwright fells in the Lake District, covering a staggering distance of over 300 miles - plus many thousands of metres of ascent - in only seven days and one hour. Those in the know thought that this record would never be beaten. It is the ultimate British ultramarathon. The person taking on this superhuman challenge would have to be willing to push harder and suffer more than ever before. There is no Map in Hell tells the story of a man willing to do just that. In 2014, Steve Birkinshaw made an attempt at setting a new record. With a background of nearly forty years of running

elite orienteering races and extreme-distance fell running over the toughest terrain, if he couldn't do it, surely no one could. But the Wainwrights challenge is in a different league: aspirants need to complete two marathons and over 5,000 metres of ascent every day for a week. With a foreword by Joss Naylor, *There is no Map in Hell* recounts Birkinshaw's preparation, training and mile-by-mile experience of the extraordinary and sometimes hellish demands he made of his mind and body, and the physiological aftermath of such a feat. His deep love of the fells, phenomenal strength and tenacity are awe inspiring, and testimony to athletes and onlookers alike that 'in order to attain the impossible, one must attempt the absurd'.
