La Atrevida Christopher McDougall, 2004-11-09 ¿Qué pudo haber sucedido para que una superestrella de la música, terminara detrás de los barrotes de una prisión brasilera, acusada de ayudar a fraguar el secuestro, violación e indoctrinación de docenas de mujeres adolescentes? Poco después del lanzamiento de su primer disco Gloria Trevi y su afamado productor, Sergio Andrade, comenzaron una escuela de talento para niñas jóvenes que soñaban con volverse famosas. Poco tiempo después, comenzaron a circular extraños rumores que sostenían que la escuela era en realidad la fachada de una operación de esclavas sexuales, encargada de torturar e indoctrinar a las mismas niñas que querían ser como su ídolo, Gloria Trevi. ¿Cómo pudo suceder esto? ¿Estuvo involucrada Gloria Trevi en el asunto, o cayó ella también bajo el yugo de su perverso y brillante manager? En la primera exploración mesurada de esta escandalosa historia, el reconocido periodista Christopher McDougall cuenta la historia de cómo Gloria Trevi pasó de ser una desconocida a ser una superestrella a nivel mundial, a tener que escapar de las autoridades durante dos años, antes de ser hallada y capturada en Rio de Janeiro. A través de entrevistas exclusivas con Trevi y Andrade, McDougall revela los complicados nudos y vueltas de esta increíble historia, ofreciéndole a los lectores una mirada de cerca a la peculiar historia personal de Sergio Andrade y lo que realmente estaba sucediendo tras las puertas de la escuela de estrellas de Gloria Trevi.

Born to Run Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon

in a bikini, pausing to down a beer at the 20 mile mark.

Narcoland Anabel Hernandez, 2013-09-10 The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names – not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

Brass Bands of the World: Militarism, Colonial Legacies, and Local Music Making Suzel Ana Reily, Katherine Brucher, 2016-04-15 Bands structured around western wind instruments are among the most widespread instrumental ensembles in the world. Although these ensembles draw upon European military traditions that spread globally through colonialism, militarism and missionary work, local musicians have adapted the brass band prototype to their home settings, and today these ensembles are found in religious processions and funerals, military manoeuvres and parades, and popular music genres throughout the world. Based on their expertise in ethnographic and archival research, the contributors to this volume present a series of essays that examine wind band cultures from a range of disciplinary perspectives, allowing for a comparison of band cultures across geographic and historical fields. The themes addressed encompass the military heritage of band cultures; local appropriations of the military prototype; links between bands and their local communities; the spheres of local band activities and the modes of sociability within them; and the role of bands in trajectories toward professional musicianship. This book will appeal to readers with an interest in ethnomusicology, colonial and post-colonial studies, community music practices, as well as anyone who has played with or listened to their local band.

Blood and Gold Peter Murrieta, Jeffrey J. Mariotte, 2021-10-25 Joaquin Murrieta. In the California gold camps of the

1850s, his very name struck terror into the hearts of miners. A bounty was put on his head and a new law-enforcement agency created just to capture or kill him. Joaquin was a lover, a leader, and a legend. While terrorizing white miners, he earned respect and devotion from the many Mexicans and Latin Americans in the gold fields. Although he tried to live an honest, hardworking life, the racism and intolerance he encountered altered his course. Forced into a life of crime, he struck back, forming a band of outlaws and then an army of patriots, with the intent of driving the Americans from the land that had so recently been Mexican territory. The historical epic novel *Blood and Gold: The Legend of Joaquin Murrieta*, by Jeffrey J. Mariotte and Peter Murrieta, is the definitive account of the life and legend of the Robin Hood of the El Dorado--the first fictional treatment of these events that benefits from memories handed down through generations of the Murrieta family.

Cartographies of Diaspora Avtar Brah, 2005-08-18 By addressing questions of culture, identity and politics, *Cartographies of Diaspora* throws new light on discussions about 'difference' and 'diversity', informed by feminism and post-structuralism. It examines these themes by exploring the intersections of 'race', gender, class, sexuality, ethnicity, generation and nationalism in different discourses, practices and political contexts. The first three chapters map the emergence of 'Asian' as a racialized category in post-war British popular and political discourse and state practices. It documents Asian cultural and political responses paying particular attention to the role of gender and generation. The remaining six chapters analyse the debate on 'difference', 'diversity' and 'diaspora' across different sites, but mainly within feminism, anti-racism, and post-structuralism.

Hitler's Pope John Cornwell,2000-10-01 The “explosive” (The New York Times) bestseller that “redefined the history of the twentieth century” (The Washington Post) This shocking book was the first account to tell the whole truth about Pope Pius XII's actions during World War II, and it remains the definitive account of that era. It sparked a firestorm of controversy both inside and outside the Catholic Church. Award-winning journalist John Cornwell has also included in this seminal work of history an introduction that both answers his critics and reaffirms his overall thesis that Pius XII fatally weakened the Catholic Church with his endorsement of Hitler—and sealed the fate of the Jews in Europe.

Have a New Teenager by Friday Dr. Kevin Leman,2011-09-01 Parents may survive the terrible twos and the first years of school all right, but the teenage years bring entirely new and alien creatures. So, parents have a choice: either send that teenager to boarding school and visit him when he reaches normalcy again (in about ten years) or choose to experience the best, most fun years of life--together! The secret is in how the parental cards are played. With his signature wit and commonsense psychology, internationally recognized family expert and New York Times bestselling author Dr. Kevin Leman helps parents communicate with the whatever generation establish healthy boundaries and workable guidelines gain respect--even admiration--from their teenager turn selfish behavior around navigate the critical years with confidence pack their teenager's bags with what they need for life now and in the future become the major difference maker in their teenager's life Teenagers can successfully face the many temptations of adolescence and grow up to be great adults. And parents, Dr. Leman says, are the ones who can make all the difference, because they count far more in their teenager's life than they'll ever know . . . even if their teenager won't admit it (at least until she's in college and wants to know how to do the laundry).

The Reef Juan Villoro,2017-05-30 A Caribbean resort specializing in faked cartel kidnappings is the site for Villoro's profound and satirical murder mystery. Amidst stagings of guerilla warfare, rumors of killer bees and encroaching cartel activity, recovering ex-rocker, Tony Góngora, attempts to solve the mystery of an American scuba-diver's murder. As he tries to piece together the events of the crime, Tony uncovers his own bizarre and illuminating memories: of a fatherless childhood spent in the high-risk company of his eccentric friend and the hotel's manager; playing gigs with The Velvet Underground; joining a Japanese pop group. Against the backdrop of a deteriorating climate, a fast-eroding beachfront, official corruption, cartel violence, and delusional Western escapism, Tony and an international cast of hotel staffers make and break alliances as the personal begins to echo the political, and artifice and reality start to blur. With his signature wit, originality, and dashes of dazzling social theory, Villoro has created a biting satire of tourism and a brilliant analogy for Mexico's unique position in global politics.

A History of the World in 100 Objects Neil MacGregor,2011-10-06 This book takes a dramatically original approach to the history of humanity, using objects which previous civilisations have left behind them, often accidentally, as prisms through which we can explore past worlds and the lives of the men and women who lived in them. The book's range is enormous. It begins with one of the earliest surviving objects made by human hands, a chopping tool from the Olduvai gorge in Africa, and ends with an object from the 21st century which represents the world we live in today. Neil MacGregor's aim is not simply to describe these remarkable things, but to show us their significance - how a stone pillar tells us about a great Indian emperor preaching tolerance to his people, how Spanish pieces of eight tell us about the beginning of a global currency or how an early Victorian tea-set tells us about the impact of empire. Each chapter immerses the reader in a past civilisation accompanied by an exceptionally well-informed guide. Seen through this lens, history is a kaleidoscope - shifting, interconnected, constantly surprising, and shaping our world today in ways that most of us have never imagined. An intellectual and visual feast, it is one of the most engrossing and unusual history books published in years.

Queer Latinidad Juana María Rodríguez,2003 An examination into queer identity in relation to Latino/a America

According to the 2000 census, Latinos/as have become the largest ethnic minority group in the United States. Images of Latinos and Latinas in mainstream news and in popular culture suggest a Latin Explosion at center stage, yet the topic of queer identity in relation to Latino/a America remains under examined. Juana María Rodríguez attempts to rectify this dearth of scholarship in *Queer Latinidad: Identity Practices, Discursive Spaces*, by documenting the ways in which identities are transformed by encounters with language, the law, culture, and public policy. She identifies three key areas as the project's case studies: activism, primarily HIV prevention; immigration law; and cyberspace. In each, Rodríguez theorizes the ways queer Latino/a identities are enabled or constrained, melding several theoretical and methodological approaches to argue that these sites are complex and dynamic social fields. As she moves the reader from one disciplinary location to the other, Rodríguez reveals the seams of her own academic engagement with queer latinidad. This deftly crafted work represents a dynamic and innovative approach to the study of identity formation and representation, making a vital contribution to a new reformulation of gender and sexuality studies.
