Defund Fear Zach Norris, 2021-02-02 A groundbreaking new vision for public safety that overturns more than 200 years of fear-based discrimination, othering, and punishment As the effects of aggressive policing and mass incarceration harm historically marginalized communities and tear families apart, how do we define safety? In a time when the most powerful institutions in the United States are embracing the repressive and racist systems that keep many communities struggling and in fear, we need to reimagine what safety means. Community leader and lawyer Zach Norris lays out a radical way to shift the conversation about public safety away from fear and punishment and toward growth and support systems for our families and communities. In order to truly be safe, we are going to have to dismantle our mentality of Us vs. Them. By bridging the divides and building relationships with one another, we can dedicate ourselves to strategic, smart investments—meaning resources directed toward our stability and well-being, like healthcare and housing, education and living-wage jobs. This is where real safety begins. Originally published in hardcover as *We Keep Us Safe: Building Secure, Just, and Inclusive Communities*, **Defund Fear** is a blueprint of how to hold people accountable while still holding them in community. The result reinstates full humanity and agency for everyone who has been dehumanized and traumatized, so they can participate fully in life, in society, and in the fabric of our democracy.

Article 2 Bruce Abramson, 2008 This volume constitutes a commentary on Article 2 of the United Nations Convention on the Rights of the Child. It is part of the series, *A Commentary on the United Nations Convention on the Rights of the Child*, which provides an article by article analysis of all substantive, organizational and procedural provisions of the CRC and its two Optional Protocols. For every article, a comparison with related human rights provisions is made, followed by an in-depth exploration of the nature and scope of State obligations deriving from that article. The series constitutes an essential tool for actors in the field of children's rights, including academics, students, judges, grassroots workers, governmental, non-

governmental and international officers. The series is sponsored by the Belgian Federal Science Policy Office.

Constitutionalism and the Rule of Law Maurice Adams,Anne Meuwese,Ernst Hirsch Ballin,2017-02-02 Rule of law and constitutionalist ideals are understood by many, if not most, as necessary to create a just political order. Defying the traditional division between normative and positive theoretical approaches, this book explores how political reality on the one hand, and constitutional ideals on the other, mutually inform and influence each other. Seventeen chapters from leading international scholars cover a diverse range of topics and case studies to test the hypothesis that the best normative theories, including those regarding the role of constitutions, constitutionalism and the rule of law, conceive of the ideal and the real as mutually regulating.

The President and Immigration Law Adam Cox,Cristina M. Rodríguez,2020 When President Barack Obama announced his plans to shield millions of immigrants from deportation, Congress and the commentariat pilloried him for acting unilaterally. When President Donald Trump attempted to ban immigration from six predominantly Muslim counties, a different collection of critics attacked the action as tyrannical. Beneath this polarized political resistance lies a widely shared belief: that Congress, not the President, makes our immigration policies, dictating who can come to the United States, and who can stay, in a detailed and comprehensive legislative code. In *The President and Immigration Law*, Adam Cox and Cristina Rodriguez shatter the myth that Congress controls immigration policy. Drawing on a wide range of sources--rich historical materials, unique data on immigration enforcement, and insider accounts of our nation's massive immigration bureaucracy--they tell the story of how the President became our immigration policymaker-in-chief over the course of two centuries. From founding-era debates over the Alien and Sedition Acts to Jimmy Carter's intervention during the Mariel boatlift from Cuba, presidential crisis management has played an important role in this story. Far more foundational, however, has been the ordinary executive obligation to enforce the law. Over time, the power born of that duty has become the central vehicle for making immigration policy in the United States. A pathbreaking account of the President's relationship to Congress, Cox and Rodriguez's analysis helps us better understand how the United States ended up running an enormous shadow immigration system--one in which nearly half of all noncitizens living in America are here in violation of the law. It also provides a blueprint for reform, one that accepts rather than laments the role the President plays in shaping the national community, while outlining strategies to curb the abuse of law enforcement authority in immigration and beyond.

Here it is - the first new Catechism of the Catholic Church in more than 400 years, a complete summary of what Catholics around the world commonly believe. The Catechism draws on the Bible, the Mass, the Sacraments, Church tradition and teaching, and the lives of saints. The Catechism of the Catholic Church is a positive, coherent and contemporary map for our spiritual journey toward transformation.

Small States and EU Governance Jean Micallef Grimaud,2017-09-06 This book examines a crucial question about small

states and their governments’ influence in the European Union (EU) decision-making processes. - Are EU small member state governments influential in EU decision-making processes? In other words, do they exercise influence in these processes? And if so, how and at which stage do they do this? This book seeks to answer the above questions by focusing on Malta - the smallest state in the EU - and whether it exercises influence in ‘uploading’ its preferences in two distinct stages of EU legislative decision-making processes - decision-shaping (formation) and decision-taking (adoption). The cases selected and analyzed showcase the Maltese government’s behaviour in legislative negotiations in differing EU policy spheres that are extremely relevant to it. These are the adoption of EU directives on pyrotechnic articles (falling under the EU competition and consumer health and safety policy spheres) and on the extension of EU long-term residence to beneficiaries of international protection (falling under EU immigration policy). As analyzed in the latter chapters of the book, Malta’s government has achieved varying degrees of success in its exercise of influence in these EU decision-making processes.
